

STUDENT GUIDE

How to join Partnr and find your partner

A step by step walkthrough: exploring competitions, creating your account page by page, and using every part of your account once you are in.

What Partnr is for

Lots of students have an idea they want to build: a research project, a business, a nonprofit, an app, or an entry for a competition. What is often missing is the right partner, someone with the skills you don't have who cares about the same goal.

Classroom apps and group chats help you work with people you already know. **Partnr helps you find people you don't know yet.** It matches high school students by interests, skills and the competitions they are targeting, at your school, in your city, or anywhere in the world.

Find a partner

Get students picked for you, or search for someone with a specific skill or competition.

Post or join a project

Post your idea and let partners apply, or apply to a project someone else posted.

Explore competitions

Browse 250+ real competitions and see which ones let you team up across schools.

Plan and work together

Use your private board, chat with partners, and share files in a shared workspace.

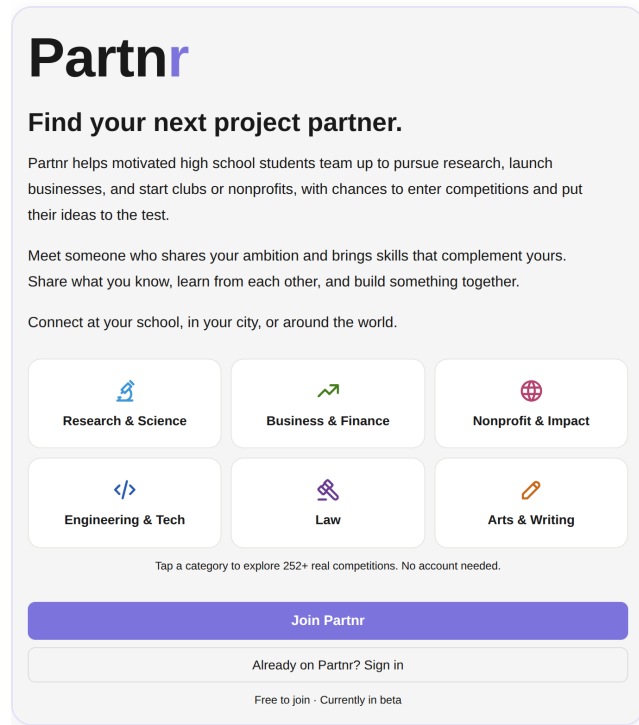

Who can join

- High school students **ages 13 to 19**, anywhere in the world.
- If you are under 18, a parent or guardian should review the Terms, Privacy Policy and Community Guidelines with you. There is a guide for parents linked at the bottom of every page.
- Partnr is **free**. It is in beta, which means it works and is open to students, and new features are still being added.

What this guide covers · tap a section to jump to it

1	Explore before you join	Home page, competitions, team types	›
2	Create your account	Profile, email link, interests, skills	›
3	Find partners	Matches, Find students, connecting	›
4	Projects and deadlines	Post, apply, manage, delete, calendar	›
5	Work together	My board, Inbox, chat, workspace	›
6	Your profile and settings	Edit, verify your school, emails, invite	›
7	Staying safe	What others see, report, block	›

The home page

Go to **projectpartnr.com**. The home page explains what Partnr does and has three ways in:

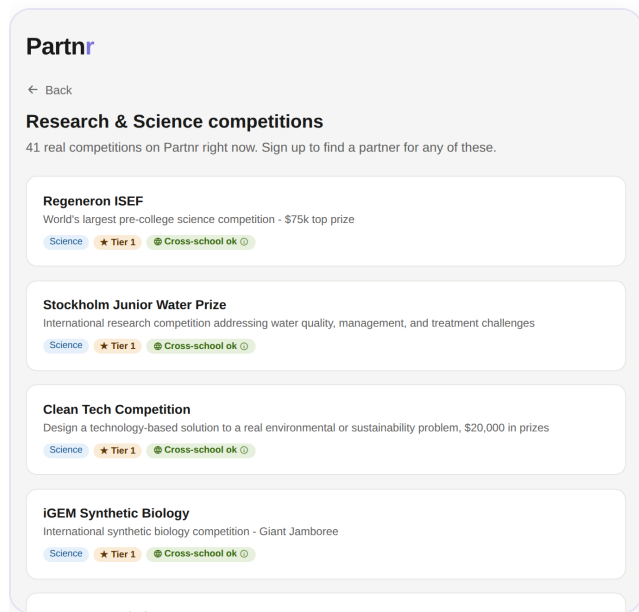

1. **Category tiles.** Tap Research & Science, Business & Finance, Nonprofit & Impact, Engineering & Tech, Law, or Arts & Writing to see real competitions in that area. **No account needed.**
2. **Join Partnr** starts creating your account.
3. **Already on Partnr? Sign in** is for students who already have an account.

The links at the bottom go to the Terms, Privacy Policy, Community Guidelines, a page for parents, and a form to report a problem or send feedback.

TIP

Browsing competitions first is a good way to find a goal before you sign up. You can add the competitions you like to your profile later.

Browsing competitions

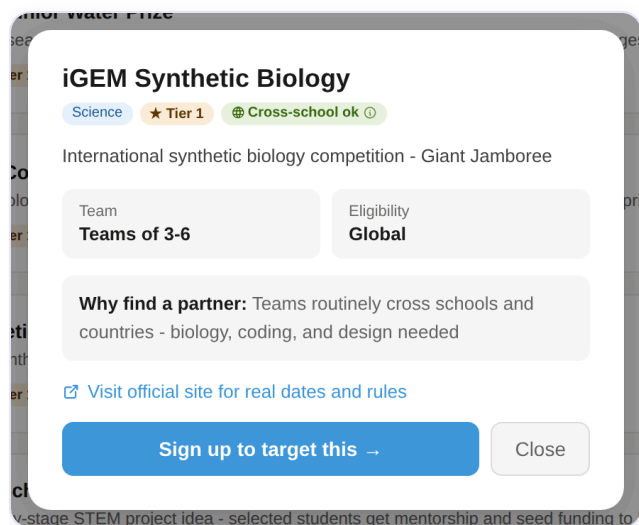

After you tap a category, you see every competition in it. Each card shows:

- **Name and a one-line description.** Tap the name to open the full details.
- **Category**, like Science or Business.
- **Tier**, which shows how big the competition is:
 - ★ **Tier 1** major national or international competitions
 - Tier 2** well-known, often national or regional
 - Local** local or regional events
- **Team type**, which tells you who you can team up with. This is the most important tag, so it is explained on the next page.

Tap ← **Back** to go back to the home page, or **Sign up to find a partner** at the bottom of the list.

Competition details

Tapping a competition name opens a details card with:

- **Team:** how many people can be on a team.
- **Eligibility:** who can enter, such as grades, ages or countries.
- **Why find a partner:** what kind of teammate helps most.
- **Visit official site** for the real dates and rules.

GOOD TO KNOW

Always confirm dates and rules on the official site. Competitions change their rules from year to year.

What the team types mean

Every competition on Partnr has one of three team type tags. Tap any tag in the app and a short explanation appears right under it.

Congressional App Challenge
US House of Representatives coding competition - display at Capitol Hill

Engineering & Tech ★ Tier 1 🌐 Cross-school ok 🇺🇸 US residents

Cross-school ok: team up with students from any school, city or country.

🔗 Cross-school allowed within congressional district - coding, design, product needed
🌐 Official site: check real dates and rules

+ Add

Cross-school ok

You can team up with students from **any school, city or country**. These are the competitions where Partnr helps the most, because your best partner might be anywhere.

Example: Regeneron ISEF, Conrad Challenge, Diamond Challenge.

Junior Science and Humanities Symposium (JSHS)
Original independent STEM research, presented at a regional and national symposium

Science ★ Tier 1 🧑 Prep partner 🇺🇸 US, grades 9-12

Prep partner: you compete on your own. Find someone from any school to practice with and give each other feedback.

🔗 Individual entry - find a research partner from any school for feedback
🌐 Official site: check real dates and rules

+ Add

Prep partner

You **compete on your own**, but you can find someone from any school to practice with, study with, and give each other feedback.

Example: JSHS, where each student presents their own research.

AIA Student Design Competition
National architecture design competition for regional AIA chapter winners

Arts ★ Tier 1 🏠 Same school 🇺🇸 Must first win your regional AIA chapter competition

Same school: teams must come from one school, so you'll team up with classmates.

🔗 This requires winning your regional round first - find a fellow architecture student to prep with
🌐 Official site: check real dates and rules

+ Add

Same school

Teams must come from **one school** or one school chapter, so your teammates will be classmates. Partnr can still help you find students at your own school with the skills you need.

Example: competitions run through school clubs or chapters.

HOW PARTNR USES THIS

When you pick a Same school competition, Partnr knows to look for partners at your school. For Cross-school competitions, it can look anywhere you allow.

Getting started takes about 5 minutes

Tap **Join Partnr** on the home page. The bar at the top of each page shows how far along you are.

Fields with a red * are required. If something is missing, a red message appears under that field.

Full name Other students see your first name and last initial, like "Lucas H."

Email Use an email you check. A personal email is recommended, because some schools block sign-in emails.

School name Start typing and pick your school from the list.

Country Sets which languages are suggested.

Zip / postal code Only asked in countries that use one. Used to find students near you.

Home city Where you live, not your school.

Grade / Year Pick from the list.

Date of birth You must be 13 to 19.

Languages Tap every language you're comfortable working in. Not listed? Type it and tap Add.

Check the box to agree to the Terms, Privacy Policy and Community Guidelines, then tap **Continue** →.

2 Check your email

Partnr

Check your email

We sent a login link to **you@email.com**. Click it to continue, and you'll come right back here.

ⓘ Didn't get it? Check spam first. Some school email systems block or filter automated messages entirely. If it still doesn't show up after a few minutes, try signing up again with a personal email instead.

← Use a different email

Partnr does not use passwords. Instead, it emails you a **login link**.

1. Open your email and find the message from Partnr.
2. Click the link. You'll come right back to Partnr to finish your account.

DIDN'T GET IT?

Check your spam folder first. Some school email systems block automated messages. If it still doesn't come after a few minutes, tap **Use a different email** and try a personal email.

Signing in later

Partnr

Sign in

For students who already created a Partnr account.

Email

you@email.com

Send sign-in link →

or

 Sign in with Google

 Sign in with Microsoft

 Sign in with GitHub

ⓘ Some schools block third-party sign-in until their IT admin approves it. If Google or Microsoft doesn't work, use your email instead. It always works and doesn't require any approval.

New to Partnr? Create an account

Next time, tap **Already on Partnr? Sign in** on the home page. You can:

- Type your email and tap **Send sign-in link**, then click the link in your email, or
- Sign in with **Google**, **Microsoft** or **GitHub**.

Some schools block Google or Microsoft sign-in until their IT team approves it. If that happens, use the email link. It always works.

3 Your project, interests and goals

Partnr

Find the right partner to bring your ideas to life.

Whether you're starting a project, joining one, or exploring possibilities, connect with students who share your interests and ambition.

STATUS * Pick all that fit

Describe a project you have in mind or the kind you'd be interested in joining. **Required. A sentence or two is all it takes.**

I run a nonprofit that builds clean water wells, and I want to research an iodine disk that cleans jerry can water. I need a partner who knows chemistry.

Your interests (we pick these from what you wrote. Tap to change, up to 2)

HAVE A COMPETITION IN MIND?

Add as many as you're targeting.

Q Search ISEF, Hackathon, Conrad... or type your own

NOT SURE WHERE TO START?

Browse by category or let us help.

WHO DO YOU WANT TO CONNECT WITH? *

You can change this anytime from your matches page.

[Continue →](#)

[← Back](#)

This page tells Partnr what you want to do, so it can find the right people.

Status Pick all that fit: *I have a project and need partners, Open to joining a project, or Just exploring.*

Describe a project A sentence or two about your idea, or the kind of project you'd like to join. Mention the skills you need.

Your interests Partnr picks these from what you wrote. Tap to change them. You can have up to 2.

Competitions Optional. Add the ones you're targeting (see below).

Who to connect with *Students at my school, Students in my city / region, or Anyone in the world.* You can change this anytime.

TIP

The more specific your description, the better your matches. "I need someone who knows chemistry" works better than "I like science."

Adding competitions

The screenshot shows a form titled "HAVE A COMPETITION IN MIND?". Below the title is the instruction "Add as many as you're targeting." There is a search bar with the placeholder text "Search ISEF, Hackathon, Conrad... or type your own". Below the search bar are two chips: "Conrad Challenge x" and "Stockholm Junior Water Prize x". There are two buttons: "Browse by category" with a dropdown arrow and "Help me pick" with a plus icon and an upward arrow. Below these buttons is a section titled "Pick up to 2, and/or describe it in your own words below." containing several category chips: "Research & Science" (highlighted in blue), "Business & Finance", "Nonprofit & Impact", "Engineering & Tech", "Law", and "Arts & Writing". Below the chips is a text input field with the example text "e.g. I'm into AI and want to build something useful, or: I like biology and want to do research...". At the bottom is a large blue button labeled "Suggest competitions" with a right-pointing arrow.

There are three ways to add competitions:

1. **Search.** Type a name like ISEF or Conrad. If it's not on the list, you can add your own.
2. **Browse by category.** Filter by Science, Math, Business, and more. Tap **+ Add** on any competition. The team type tags work the same as on the home page.
3. **Help me pick.** Pick up to 2 interests or describe what you like, then tap **Suggest competitions**. Partnr suggests ones that fit you.

Added competitions appear as chips under the search box. Tap the **x** to remove one.

Help me pick can be used up to 10 times a day.

When you're done, tap **Continue** →.

4

Your skills

Partnr

There's more than one way to make a team stronger.

Skills come from classes, hobbies, and everyday experience. Choose the ones you've used. They show other students what you'd bring to a team.

Tap a category to explore the options and select all that apply.

✨ Suggested for you

Based on your interests, project and competitions. Tap the skills you have.

Social Impact & Leadership · 2 selected

Community Organizing Nonprofit Management Volunteer Coordination
International Development Civic Engagement Education / Tutoring Fundraising
Event Planning Project Management

Writing & Communication

Research & Academic Writing Essay Writing Journalism / Reporting
Creative Writing Technical Writing Grant Writing Screenwriting / Scripts
Poetry Public Speaking Debate Social Media Content

Business & Finance

Business Strategy Business Plan Writing Market Research
User Research / Customer Discovery Financial Modeling Excel / Google Sheets

Skills come from classes, hobbies and everyday experience. Pick the ones you've actually used. They show other students what you'd bring to a team.

✨ Suggested for you

The skill categories that fit your interests, project and competitions open at the top. Tap every skill you have. Tap it again to remove it.

Partnr suggests **categories**, never specific skills, and **nothing is selected for you**. You choose every skill yourself.

SKILL LEVELS

For coding, engineering and design skills, you also pick **Beginner** or **Experienced**. Other skills are just one tap.

PART 2 · CREATE YOUR ACCOUNT

SELECT ADDITIONAL SKILLS
Add all the skills you have. It helps you match with more partners and projects.

Engineering & Hardware

Design & Creative Tools

Humanities & Social Sciences

MATH COURSES
Select every course you've completed or are currently taking, if any (optional). Research, engineering, and business projects often need math too, not just math competitions.

Math

Selected (3)
Nonprofit Management × Fundraising × Chemistry ×

MISSING A SKILL? ADD YOUR OWN.
e.g. Birding, Podcasting, Sign language **Add**

HOW MANY HOURS A WEEK CAN YOU COMMIT? *
1-3 hrs/week 4-6 hrs/week 7-10 hrs/week 11+ hrs/week

WHEN ARE YOU USUALLY AVAILABLE? *
Weekdays Weekends Both

Select additional skills

Every other category is below, closed. Tap a category to open it. Adding all your skills helps you match with more partners and projects.

Math courses

Optional. Tap a course once for *Currently taking* and again for *Completed*.

Selected

A purple box lists every skill you picked. Tap **x** to remove one.

Missing a skill?

Type it in (like Birding, Podcasting or Sign language) and tap **Add**.

Time

Required: how many **hours a week** you can commit, and **when** you're usually free (Weekdays, Weekends or Both).

Experience and awards (optional)

Add a **Project**, **Club** or **Internship** with a title, description and link, then tap **+ Add**. You can add a few.

Add awards like "1st place regional science fair" in the Awards box.

Just getting started? Skip this. That's totally fine.

Tap **Continue** → to finish.

EXPERIENCE (optional)
A project, a club, an internship. Just getting started? Skip this, that's totally fine.

Project Club Internship

Title
e.g. ISEF Project: Microplastics in Groundwater

Description (optional)
What is it, and what did you do?

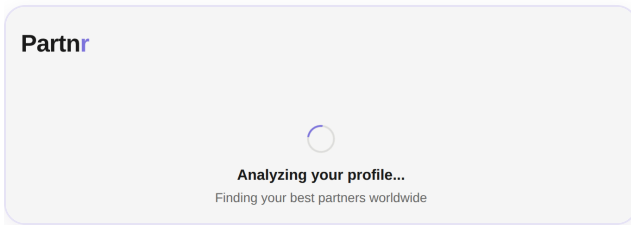

Link (optional)
https://... (GitHub, blog, portfolio, paper, Google Drive)

+ Add

AWARDS (optional)
e.g. 1st place regional science fair **Add**

Continue →

5 Finding your matches

Partnr now looks through the students on Partnr and picks the best fits for you, based on your interests, skills, competitions and who you want to connect with. This takes a few seconds.

Then you land in your account. **You're in!** The rest of this guide shows everything you can do there.

EARLY DAYS

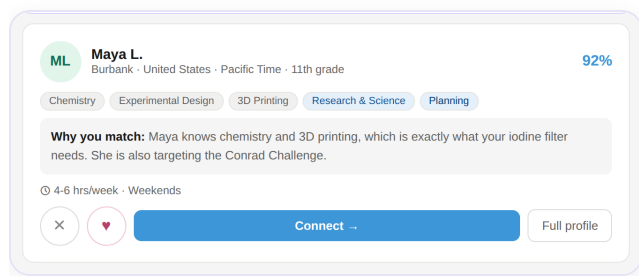

Partnr is new, so there may not be many students near you yet. If you see "You're one of the first students on Partnr," check back soon, invite friends, browse Find students, or post a project so partners can come to you.

Your account at a glance

Partnr   Matches Find students Open projects Deadlines 🌟 My board	
Where	What it's for
Matches	Students Partnr picked for you.
Find students	Search for a student with a specific skill or competition.
Open projects	Projects looking for partners. Post your own or apply.
Deadlines	A calendar of upcoming competition deadlines.
🌟 My board	Your private planning space: to-dos, goals, competitions, saved partners.
✉ Inbox (top right)	Connection requests, conversations, chat and workspaces. The red number shows what's new.
Your initials (top right)	Your profile and settings menu.

On a phone, the five tabs move to a bar at the bottom of the screen.

Matches: picked for you

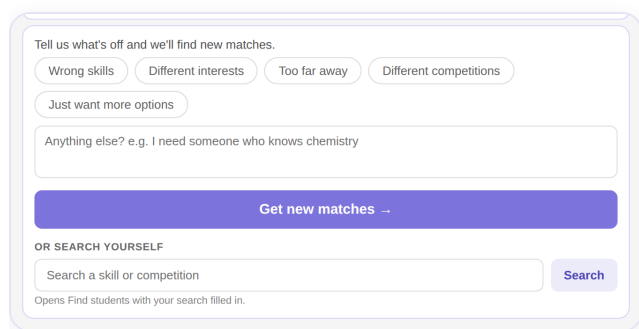

Each match card shows:

- Their **name** (first name and last initial), city, grade, and a **match %**.
- Their **skills** and interests.
- **Why you match**: a short reason this person fits you.
- How much time they have each week.

The buttons:

X Pass	Not interested. You can tell us why (optional).
♥ Save	Saves them to My board so you can come back later.
Connect →	Send a connection request.
Full profile	See everything about them.

On a phone you can also swipe a card left to pass or right to save. Passed students go into a "Show passed" list at the bottom if you change your mind.

Not the right fit?

Tap **Not the right fit? Find other students** near the top. Pick what's off (wrong skills, too far away, different competitions) or write what you need, then tap **Get new matches**. Partnr uses what you said to pick a new set.

Or type a skill or competition under **Or search yourself** to jump to Find students.

You can get up to 3 rounds of new matches a day. **Change your profile settings** (next to "Matching you with") lets you change who you match with.

WHAT THEY'RE LOOKING FOR

A partner who can lead fundraising and outreach for a water research project

Connect → **Back**

Full profile shows a student's skills, competitions, project idea, weekly hours, time zone, languages, and what they're looking for in a partner.

Read it before you connect, so your message can say something specific.

Connect with Maya Lee
Write a short intro. Tell them why you want to collaborate.

🔄 This introduces you, and you'll both see the connection in your Inbox once accepted. Full messaging and parent visibility are still being built.

Hi! I saw your profile and think we would work great together...

Send request → **Cancel**

Sending a connection request

1. Tap **Connect** →.
2. Write a short intro: who you are, what you're working on, and why you want to team up.
3. Tap **Send request**.

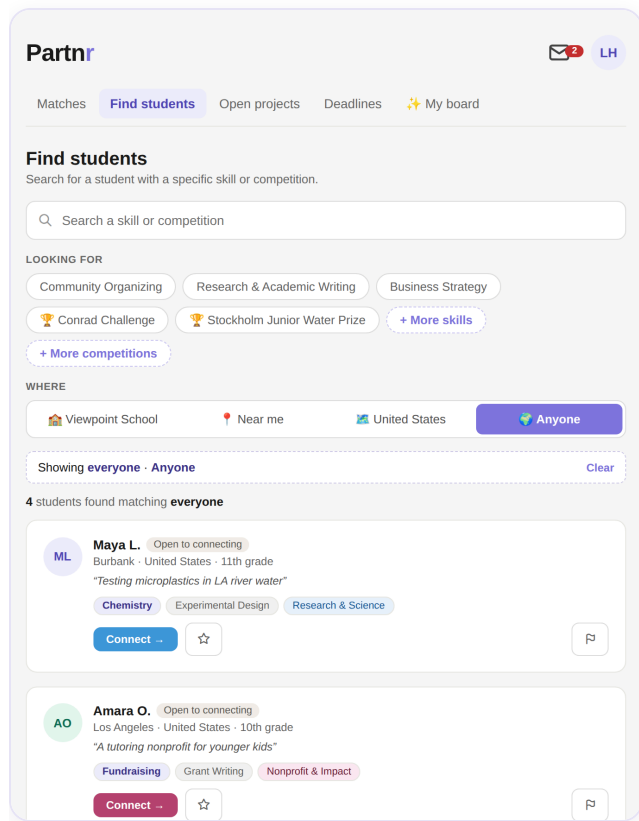

The request goes to their Inbox. When they accept, you can chat and share files.

WRITE A GOOD INTRO

"Hi Maya! I'm building an iodine water filter for the Conrad Challenge and need someone who knows chemistry. I saw you're testing river water. Want to work on it together?"

You can send up to 20 requests a day.

Find students

Use this tab when you know exactly what you need.

1. **Search** for a skill or competition, like "Python" or "DECA".
2. Or tap a chip under **Looking for**. These come from your profile. Tap **+ More skills** or **+ More competitions** for others.
3. Choose **Where**: your school, **Near me**, your country, or **Anyone**.

Each result shows the student's skills and project idea. Their matching skill is highlighted.

Connect → Send a connection request.

☆ **Star** Save them to My board.

🚩 **Flag** Report a profile that breaks the rules.

The "Showing" bar tells you what you're filtering by. Tap **Clear** to start over.

Iodine disk for clean jerry can water **Edit post**

APPLICATIONS

Sam O.
Austin · United States

I know Python and have built two apps. I can make a dashboard that shows your filter test results.

Accept **Decline**

Maya L.
Burbank · United States

I know chemistry and 3D printing and I want to help design the disk.

Accepted

Reviewing applications to your project

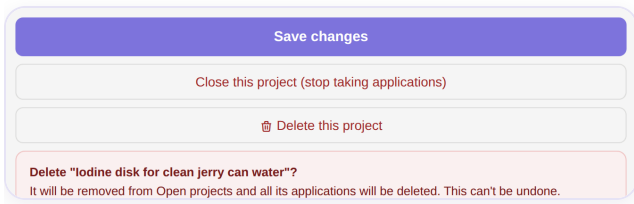

Tap **Applications** on your project (in Open projects or on My profile). For each student you'll see their message and where they're from.

- **Accept** adds them to your project. You can then message them from your Inbox.
- **Decline** if it's not a fit.

Tap **Edit post** to change your project.

You'll get an email when someone applies, and when your own application is accepted. You can turn these off in Email settings.

Closing or deleting your project

Tap **Edit** on your project (in Open projects under Your postings, or on My profile). At the bottom you have two choices:

Close this project

Stops new applications and hides it from Open projects. You can **reopen** it later. Use this when your spots are filled or you want to pause.

Delete this project

Removes it for good, along with all its applications. A box asks you to confirm first. Tap **Delete project** to delete it, or **Keep it** to go back.

CAN'T BE UNDONE

A deleted project can't be brought back. If you might want it again, close it instead.

Deadlines

Partnr

Matches Find students Open projects **Deadlines** My board

COMPETITION CALENDAR

We check these dates, but competitions can change them. Always confirm the deadline and rules on the official site before you submit.

OCT 26 Act now	Congressional App Challenge US House of Representatives coding competition - display at Capitol Hill Engineering & Tech US residents Official site	16d left
OCT 30 Act now	Conrad Challenge Innovation challenge - aerospace, health, energy, cyber Science Global Official site	20d left
NOV 22 Act now	Junior Science and Humanities Symposium (JSHS) Original independent STEM research, presented at a regional and national symposium Science US, grades 9-12 Official site	43d left
DEC 1 Coming up	Diamond Challenge For you University of Delaware - two co-equal tracks: Business Innovation and Social Innovation Nonprofit & Impact Global ages 14-18 Official site	52d left

A calendar of upcoming competition deadlines, soonest first. Each one shows the date, how many days are left, and a link to the official site.

- **Act now** means the deadline is close.
- **Coming up** and **Upcoming** give you more time.
- **For you** marks competitions that fit your interests.

Only deadlines Partnr has checked are shown, so nothing here is a guess.

ALWAYS CHECK IT YOURSELF

Competitions can change their dates and rules. Before you submit, open the **Official site** link and confirm the deadline and rules yourself. The Deadlines tab shows this reminder at the top too.

✨ My board: your goals

Your **private** place to plan. Only you can see it. It goes from the top down: **your goals first**, then the steps to get there. Drag the  handle on any card to reorder.

The 🚩 flag next to anyone lets you report them.

Chat and Workspace

Once a request is accepted, you can talk and share files with that partner from your Inbox.

Chat

Text messages with your partner. Type at the bottom and tap **Send**.

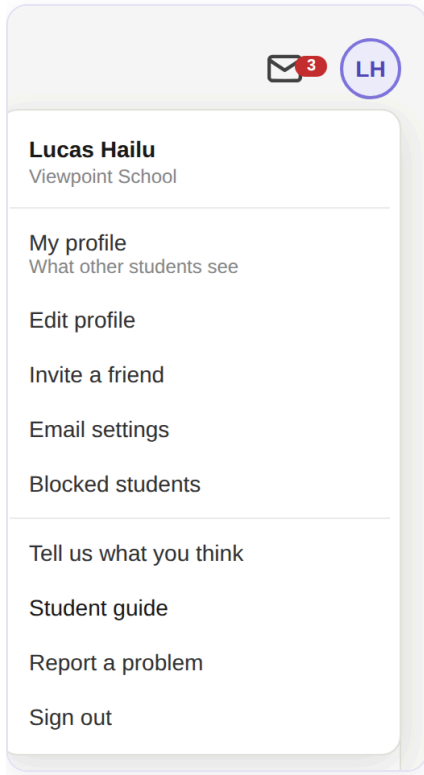

Workspace

A shared space with one partner. **Add a link** (Google Doc, GitHub, Figma) or **upload a document** (PDF, Word, PowerPoint, Excel, text or CSV, up to 10MB). Both of you can see everything in it.

USE COMMON SENSE

Keep chats and files about your project. Don't share personal info like your phone number, home address or passwords, and don't upload files that include it. Chat and Workspace both show this reminder.

The profile menu

Tap **your initials** in the top right corner.

My profile	What other students see.
Edit profile	Change anything you entered when you signed up.
Invite a friend	Send Partnr to friends.

Verify your school

Your school starts as **Self-Reported**. To verify it:

1. Tap **Verify with school email**.
2. Enter your school email and tap **Send code**.
Partnr shows you a code.
3. From your school email, send a message to **verify@mail.projectpartnr.com** with the code anywhere in the subject line.
4. Tap **I've sent it - check now**.

A verified badge helps other students and parents trust your profile. If your school email doesn't work, tap **Can't verify this way? Ask us for help**.

Editing your profile

Partnr

Matches Find students Open projects Deadlines ✨ My board

Edit profile

Email settings

Turn each email on or off. Changes save right away.

- **Connection requests** when someone wants to connect or accepts yours.
- **New messages** from partners.
- **Project applications.**
- **Weekly new matches**, sent on Mondays.

Sign-in links, school email codes and safety notices are always sent.

Invite a friend

The more students join, the better everyone's matches get. Open the profile menu and tap **Invite a friend**.

- **Text, Email, Snapchat or WhatsApp** opens that app with the invite ready to send.
- **Copy link** copies it so you can paste it in Instagram, TikTok or Discord.

WORKING WITH SOMEONE YOU ALREADY KNOW?

Invite them, and once they join, connect with them. Then you can chat and use a shared Workspace. Your board stays private to you.

Staying safe on Partnr

What others see

Your first name and last initial, city, grade, interests, skills and projects. Your school name only shows to students at your school and partners. Your email is never shown.

You decide who to connect with

Nobody can message you until you accept their request. Decline anyone you don't want to talk to.

Report

Tap the 🚩 flag on any profile, request or conversation if something breaks the Community Guidelines. Reports are private, and the student is never told who reported them.

Block

A blocked student can't see your profile or contact you, and won't show up in your matches or search. They aren't told. You can undo it in Blocked students.

GOOD HABITS

Keep conversations on Partnr while you get to know someone. Never share passwords, your home address or money. If anything feels off, report it. If you're ever in danger or someone threatens you, tell a parent, teacher or another trusted adult right away.

Common questions

Question	Answer
Does Partnr cost anything?	No. Partnr is free for every student.
I didn't get my login email.	Check spam, wait a few minutes, then try a personal email. Some school email systems block automated messages.
How do I change who I match with?	On Matches, tap Change your profile settings , or go to Edit profile, then Interests & Goals.
My matches aren't a good fit.	Tap Not the right fit? , tell us what's off, and get new matches. Adding more skills and a clearer project description also helps.
What's the difference between Connect and Apply?	Connect sends a request to a person. Apply asks to join a specific project someone posted.
Who can see My board?	Only you.
Where do I share files with my partner?	Inbox, then Workspace next to their name.
Can I work with someone at another school?	Yes, as long as the competition allows it. Look for the  Cross-school ok tag.
How do I find a classmate for a same-school competition?	In Find students, set Where to your school.
Can I delete a project I posted?	Yes. Tap Edit on your project, then Delete this project and confirm.
Something is broken.	Open the profile menu and tap Report a problem .
How do I contact the Partnr team?	Email hello@projectpartnr.com . Parents and teachers can use it too.

Ready to start?

Go to projectpartnr.com, tap **Join Partnr**, and find the partner who helps you build what you've been thinking about.

Questions? Email hello@projectpartnr.com or tap **Report a problem** in the app.
